

Chicane, Love On The Run

Like love on the run

Like love on the run

Chorus:

Like love on the run there will be tomorrow
The stars and the sun every beam I'll follow
Together were dancing all night long
Together were dancing on and on
The sound of the drum keeps my soul depending
Each day and each night and it's never ending
Together were dancing all night long
Together were dancing on and on

Chorus 3x

Cause I believe now and then... 2x

Chorus 3x

If you could look into the sun again
Cause I believe now and then...

On the run (6x)
