

# Chicane, Love On The Run (Original Mix)

Like love on the run  
Like love on the run  
Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
The sound of the drum keeps my soul depending  
each day and each night and its never ending  
Together we're dancing all night long  
together we're dancing on and on  
Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
The sound of the drum keeps my soul depending  
each day and each night and its never ending  
Together we're dancing all night long  
together we're dancing on and on  
Like love on the run there will be tomorrow  
the stars and the sun every beam I'll follow  
Together we're dancing all night long  
together we're dancing on and on  
If you could look into the sun again,  
cause I believe now and then...  
On the run (6x)
