

Chickenfoot, Future is the past

I said, oh, watching
never heard it all
one by one, though I'd find
melting down
soon I hit the ground
up so fast
the future in the past
oh, oh
the future's in the past, wooh
oh yeah, hey
uh
well, I was think in it's the real thing
broken like a mustang
we got everybody talkin
yeah, they talkin
well I got mine
woo
hey
I got a funky, funky feeling
somewhere in the past
still everyday believing
oh, I'm believin
saving the best the best for last
huh
yeah
oh
saving the best for last
wooh
saving the best for last
ya- ya-ya-ya-ya
ya- ya-ya-ya-ya
hey, hey, hey
yeah, come on
come on
future's in the past
I'm gonna listen
life ain't 'bout no hurry
I'm gonna save
come on, come on
the future's in the past
listen to my friend
let sciend
song that never ends, come on
yeah, come on
the future in the past
we don't have to worry 'bout
we each make
are melted by the sun, o
come on
come on
future's in the past
climb on the mount
listen to the ma
beside you and me
come on
come on
future's in the past
future is so pastu yeah
come on
future is the past, come on
come on
come on
future is in the past come on
