

Chihiro Onitsuka, Bad trip

I don't like what I can see
It's far from high
I don't like what I can expect
It's a boring try
Your reverberation wavers slowly to and fro
It looks like a bad trip to me
As I got force gracefully
The Sun got melt
As lies got worthless gently
All words got burst
Your red vibration reaches into my castle
It looks like a bad trip to me
Love is strange
Cause we swim and drown and rise inside
Love is strange
Cause we move and do, move and do, move and do
inside
I don't like what I can see
It's far from high
I don't like what I can expect
It's a boring try
One sweetest fusion comes up slowly after all
It looks like a bad trip to me
When you'll let me do what I want to
I may be alone
may be bad trip
bad trip
