

Children 18:3, LCM

You've got to run
You've got to go to the police
It's ok, you'll be fine
I think this is what's best for you
It's gonna turn out right
I've got to go
I've got to figure this out
You're really not at fault
You should go and clear your name
And work it out
Last chance Marie
You want to run? It'll be ok
Last chance Marie
I've got to run but you can give up now
So who are you?
Do you know what you want?
What does all this mean?
I know you have a yesterday but tomorrow is unseen
You have a choice
Do you know what you want?
When nothing else is clear
To go on now is optional
And home is near
Last chance Marie
Calm down, it'll be ok
Last chance Marie
I've got to run but you can give up now
They're coming, they're coming
You know you can't run with the death squad shooting
They're coming, they're coming
The pit bulls smiling and the squad cars screaming
Last chance Marie
You want to run? It'll be ok
Last chance Marie
I've got to run but you can give up now
To be free
