

# Children Of Bodom, Done With Everything Die For

Let me bring you down real easy  
you've got no room left to run  
so you preach over me like I will never know  
go on if they want you to  
just for your piece of mind  
I've got no fucking shame  
and I will laugh before you die  
Wonder, Wonder why you wonder  
looking for me-never seen  
what the fuck  
cant be your servant  
and you just let me be  
they got too far  
so my hands out for me,  
for beating  
let me out  
to the fact that I don't care  
your buried fact, your buried pair  
Take me away  
anyway, that's overwith  
don't care, I don't care which way  
Trust me I say-  
I wont crash  
I will never trust  
Done with everything, Die For nothing  
I'm done with you  
Take me away  
anyway, that's overwith  
don't care, I don't care which way  
Trust me I say-  
I wont crash  
I will never trust  
Done with everything, Die For nothing
