

# Children Of Bodom, Lil' Bloodred Ridin' Hood

Fire of the light, lil' bloodred ridin' hood angel  
Light before the night, dark you'd try  
You try reversing the ray of fire  
The ray amid sets your desire

I'll kill you!

Show me the signs of your silence  
In the race of corpse alone  
Take me down, oh please can I feel you?  
My lil' bloodred ridin' hood

Goodbye motherfuckers!

Little blood I'd blow away  
For a second did I go  
It's a loss!  
But I'll follow you 'til the end of the world

I'll kill it for you  
I hate you and I want you dead!

I'll kill you!

Show me the signs of your silence  
In the race of corpse alone  
Take me down, oh please can I feel you?  
My lil' bloodred ridin' hood
