

Children Of Bodom, War Inside My Head

War inside my head ain't a pretty sight
But I don't want no sympathy
It's happened thousand times before
It's just a harsh reality
War inside my head, can you sense it?
War inside my head, can you see it?
War inside my head, can you feel it?
War inside my head
Can you hear the pain? Can you see the pain?
Can you sense the pain? Can you feel the pain?
Can you help the pain? Can you fix the pain?
Can you hear the war inside my head?
War inside my head
War
The only thing real is the way I feel
That's the pain deep inside
The battle from within is gonna begin
And there ain't nowhere to hide
War inside my head, can you sense it?
War inside my head, can you see it?
War inside my head, can you feel it?
War inside my head
Can you hear the pain? Can you see the pain?
Can you sense the pain? Can you feel the pain?
Can you help the pain? Can you fix the pain?
Can you hear the war inside my head?
War inside my head
War inside my head
War inside my head every night and day
Never get no piece of mind
It ought to be a sin, I just can't win
And pure hell is all I find
War inside my head ain't a pretty sight
But I don't want no sympathy
It's happened thousand times before
It's just a harsh reality
War inside my head, can you sense it?
War inside my head, can you see it?
War inside my head, can you feel it?
War inside my head
Can you hear the pain? Can you see the pain?
Can you sense the pain? Can you feel the pain?
Can you help the pain? Can you fix the pain?
Can you hear the war inside my head?
War inside my head, war inside my head
War inside my head, war inside my head
