

# Children Of Bodom, Warheart

[spoken:]

From now on, we are enemies  
You and I

I'm an outcast on the path of rebound  
Everything is frail, I desolate, crush, and burn  
I have chosen darkness to be my guide  
War is in my heart, death is by my side

[chorus]

Warheart! With no remains of compassion or love  
Warheart! Hate your fellow as yourself

I have chosen night to be my guide  
When the daylight strikes, I hide in my trench and die

[chorus]

Warheart! With no remains of compassion or love  
Warheart! Hate your fellow as yourself

I'm the warheart, I'm dying to win the battle I live everyday  
One for all and all for me, I'm an animal, better set me free
