

# Children Of Bodom, Wrath Within

Once I desire, eternity has come  
pull back, the tale is black, all we have to die  
You say so, I am invading vision - satisfy

Once I look back, so miracle  
on a crib with the night  
Sensation, call me to die

Look down, we have to sow and all waits to say go  
Once I desire, be back to hear this cry: let me out

(And I am the first one, any want to die!?)

[Chorus:]  
With my salvation within your pain  
you gotta develop pain into your desires  
What it always about: you raise your pain  
why you can't desire your cold regained?  
Come on, get down

I touch your legs, so cold, make me cold in the light,  
and I burn now, no pain  
Your pain seems so far away,  
so everything that's cold in light may die down

[Chorus:]  
You raise your pain and I kill your strain,  
anyway, I get into your desires my way  
I crave your pain;  
I can't swallow your pain: why you returned
