

China Crisis, Scream Down At Me

China Crisis

no name

Scream Down At Me

If you could see, what you want to see

Would you stop fighting

Why should you?

Out in a field, in an open field

And i talk of my friend

I wish i knew more!

I should say what i mean

I should mean what i say

I should say what i mean, say what i mean, say what i mean!

I shouldn't be falling to their questions

They musn't listen at all

Or do they?

I can't believe in myself, i should have been there

I've no reason at all

I've no reason!

I should say what i mean

I should mean what i say

I should say what i mean, say what i mean, say what i mean!

Scream down at me!

Scream down at me!

They got you working

They got you working day and night!

(scream down at me!)

I should say what i mean

I should mean what i say

I should say what i mean, say what i mean, say what i mean!

Scream down at me!
