

# Chloe Howl, Bad Dream

You got debts to pay  
You got a back to break  
And no one understands  
The waves keep rolling  
They keep rolling

You got mouths to feed  
You got a rep to keep  
But no one understands  
You can't see dry land

And then you wake up from a bad dream  
You were gonna drown but don't worry now  
Cause you'll find your feet  
We'll walk on water one day  
A miracle

You had highs and lows  
But now you can't find no place to go  
And no one understands  
The wind keeps rolling  
It keeps rolling

There's no air to breathe  
You're all out of energy  
And no one understands  
You can't see dry land

And then you wake up from a bad dream  
You were gonna drown but don't worry now  
Cause you'll find your feet  
We'll walk on water one day  
A miracle

I'm not gonna leave you on your own  
And all together we can find a way to figure this out  
Never gonna lie, no  
One day we'll find a miracle

And then you wake up from a bad dream  
You were gonna drown but don't worry now  
Cause you'll find your feet  
We'll walk on water one day  
A miracle

Wake up from a bad dream  
You were gonna drown but don't worry now  
Cause you'll find your feet  
We'll walk on water one day  
A miracle

Wake up from a bad dream  
We'll walk on water one day  
A miracle
