

Chosen Few, Let Go & Let God

When everyday feels like a Monday, and I'm a long way from a Sunday
Trying to make sense of reality, when I only see what's in front of me
I close my eyes and know He's near
All my doubts are gone, and it's all clear

CHORUS: I've just got to let go and let God
Have faith when the way gets long
I'm never givin' up, got to give it all up
I've just got to let go and let God

Everybody's saving' for a rainy day or a holiday, doin' things their own way
Trying to take matters in their own hands, with their own plans, no one understands that
That just will not work for me
It's not by might or by my strength

(CHORUS)

When my load is heavy, I find a hiding place
I just come and kneel before His throne of grace

(CHORUS)
