

# Chris De Burgh, The Ecstasy Of Flight ( I Love Th

Come to my door, meet me at midnight,  
I can't wait anymore, and after midnight  
We must head for the town,  
Keep under cover till dawn  
With a bagful of wine;  
The night is alive, look in the shadows,  
Because now is the time, out in the shadows,  
To be somebody else, a complete transformation  
From the someone we are in the day;  
I hear a noise - there is something going on;  
I hear a voice - there is something going on;  
I see the boys - there is something going on;  
And something is happening to me, yea;  
I love the night, I love the night,  
I love the element of danger and the ecstasy of flight,  
I love the night, I love the night,  
I love to dance with a stranger and feel her delight,  
And when the dancing is through, I kick off my shoes,  
And I listen to the beating of my heart...  
After the fall, then came the hunger  
In the hearts of us all, ooh such a hunger  
That begins after dark, hides in the heart  
Like a wolf that is waiting inside;  
I see a light - there is something going on;  
It's getting bright - there is something going on;  
I look outside - there is something going on;  
And someone is calling to me;  
I love the night, I love the night,  
I love the element of danger and the ecstasy of flight,  
I love the night, I love the night,  
I love to be with a stranger and feel her delight,  
And when the morning begins, I have to get in  
Before sunlight can fall upon my face;  
I love the night, I love the night,  
I love the element of danger and the ecstasy of flight,  
I love the night, I love the night,
