Chris Flew, Song For a Boy

We stayed up all night in little green cars by the ocean
By the sea, in a field of carparks
I said your name
You made me smile or cry by the sea
In an ice-cream ocean
So why'd you have to melt inside of me?
I floated higher just so I could see your future
Why'd you have to fall away from me?
I floated higher just so I could get perspective
Don't fall asleep
'Cause I'm far away from here
And it's easier when you're around
Don't leave me here
'Cause there would be nothing left
There'd be nothing left here when you go
I try to disappear all the time
A fear of falling down
And the sound that you hear, so unclear
Is just my spaceship burning out
