

Chris Gaines, Way Of The Girl

Chris Gaines
In The Life Of Chris Gaines
Way Of The Girl
(gordon kennedy)

The very air that surrounds her
A breath you can't live without
Can't think straight since you found her
What's this creature about

You persue her in mazes
Always one step behind
You'd change the world for her graces
But she keeps changing her mind

It's just the way of the girl, just the way of the girl
It's just the way of the girl, just the way of the girl

Some made it for money
Some made it for love
Some made it for romance
My baby's all the above

It's just the way of the girl, just the way of the girl
(just the way it is, can't help it)
It's just the way of the girl, just the way of the girl
