

Chris Isaak, Don't Make Me Dream About You

Don't make me dream about you, don't make me dream about you.
Don't make me dream about you, don't make me dream about you.

I dream in daytime and night time, I dream of love or romance.
It won't be nice if they catch me, But I can live with the chance.
Because I love you, because I want you.
I will win your love for me, yeah I will win your love for me.

Looked so sweet when I meet you, now your acting so bold.
Feels so hot when I kiss you, and now you come on cold.
And I still love you, I still want you.
And I will win your love for me, yeah I will win your love for me.

No, no, no.

Don't make me dream about you, don't make me dream about you.
Don't make me dream about you, don't make me dream about you.

Took a chance when I meet you, I should of known I would loose.
I know it's wrong I should leave you, you make it so hard to choose.
And I still love you, I still want you.
And I will win your love for me, yeah I will win your love for me.

No, no, no.

Don't make me dream about you, don't make me dream about you.
Don't make me dream about you, don't make me dream about you.
Don't make me dream, don't make me dream.
