

Chris Isaak, Forever Young

I knew the first time we meet we'd be lovers.
The last time we kissed I was blue.
The first time you left I discovered.
That there won't be another like you.

Forever young.
Love will always be,
Forever young.
Love will always be. Hey!

Every day you were gone I was lonely.
Each night you were gone I was blue.
Now darling I'll be with you only.
And our love will always be true.

Forever young.
Love will always be,
Forever young.
Our love will always be.

And to the end I know, that I will love only you.

I knew the first time we meet we'd be lovers.
The last time we kissed I was blue.
The first time you left I discovered.
That there won't be another like you.

Forever young.
Love will always be,
Forever young.
Love will always be. Hey!
