

Chris Isaak, I Lose My Heart

and I'm left by myself
oh its true
yeah I still love you
They say that someone new
is holding you tonight
but you say nothings changed
that things will work out right
here comes the part again
you break my heart again
ohhhh its true
here comes the reason why
you ought to sit and cry like I do
yeah I still love you
I still love you
I still love you
oooohh I still love you
