

# Chris Isaak, I Lose My Heart

and I'm left by myself  
oh its true  
yeah I still love you  
They say that someone new  
is holding you tonight  
but you say nothings changed  
that things will work out right  
here comes the part again  
you break my heart again  
ohhhh its true  
here comes the reason why  
you ought to sit and cry like I do  
yeah I still love you  
I still love you  
I still love you  
oooohh I still love you
