

Chris Isaak, Life Will Go On

Chris Isaak
Always Got Tonight
Life Will Go On
Broken skies, heartaches that flowers won't mend
Say goodbye knowing that this is the end
Tender dreams, shadows fall
Love too sweet, to recall
Dry your eyes, Face the dawn
Life will go on

All day long thought that we still had a chance
Letting go, this is the end of romance
Broken hearts find your way
Make it through just this day
Face the world on your own
Life will go on, life will go on

There'll be blue skies, every true love
Someday I'll hold you again
They'll be blue skies in a better world, darlin'

Tender dreams, shadows fall
Love too sweet, to recall
Dry your eyes, Face the dawn
Life will go on, life will go on
Broken heart find your way
Make it through just this day
Face the world on your own
Life will go on
