

Chris LeDoux, Goin' And A Blowin'

I'm a goin and a blowin' and a heading down the road tryin' to make a livin rodeoin'
I've been a driving all night neath the pail moonlight
Waiting for the sun to start showin'
Theres to many miles and not enough time but im gonna make it
Just the same well its a mighty tough life but I like it alright
You know I wouldnt have it any other way

Well I've been drinkin' that ol black coffee till it tastes like tupentine
And I've heard every song on the Bill Mack show purd near fifty times
And a little green man on a motorcycle passed a little while ago
Boy I can sure use some sleep but I gotta keep a headin on down the road

Lets drive up get out and get on another one and boy you better win
Cause your moneys gettin' low and the banker gets mad
When them hot checks start rolling in
Well ain't life great on this interstate a lookin' out for smokey the bear
And flyin high on caffeine and copenhagen and a breathing that cool night air
Well its a mighty tough life but I like it alright
You know I wouldnt have it any other way
