

Chris Rea, Do It For Your Love

Each single day I get up and make my way
And it all comes into view
It's like a part in a play
You can turn it around in so many different ways
But it's still the part you play
And so to you I dedicate
This role they have handed me

And I will do it for your love

Down in the street you can win or lose
To that crazy beat
But you'll never change the tune
'Cos the tune is the song
And song is the game of life, we just come and go
But we can laugh and we can bend
Together though, me and you

So I will do it for your love

Look around, see that you see
There's no sense in being so blue
Now I've got to have a reason for seeing this out
Other than seeing it through

So I will do it for your love
