

# Chris Rea, Since I Found You

There's a smile on the faces I see  
Since I found you  
There's a laugh in the eye, where a tear used to be  
Since I found you  
There's a sound of a Memphis section playing on my radio  
And it sings of the reasons why I love you so  
Since I found you

There's a groove that's so smooth  
I can hardly tell who's in the studio  
And the girls on the street  
Sing out of tune so sweet  
I just have to go, it's all i need to know  
Since I found you, I ain't never going to give you up  
Since I found you, you keep me looking up  
You keep me looking up  
You keep me looking up  
Turn it up
