

# Chris Stapleton, Higher

I could climb the highest hill  
Reach my hands up to the sky  
Maybe touch a passing cloud  
My heart would know all the while

That you take me higher  
So much higher

I could board an aeroplane  
And look down across the land  
But it could never reach that place  
That I know your sweet loving can

'Cause you take me higher  
So much higher

Your love's the sunrise that turns my night into day  
It gives me wings and lets me fly away

I could shoot out into space  
Count the endless sea of stars  
But with you I'd have to say  
My heaven's never quite that far

'Cause you take me higher  
So much higher  
So much higher
