

Chris Whitley, Power Down

Down, down, down
All is revealed when you hit the ground
Miss Amelia, where are you now?
Isolation up in the clouds
Could be time to power down
Down, down, down
No one here, nowhere's around
~Round and 'round
Could be time to power down
Down, down, down
Emiliano, where are you now?
Alien nation in a middle of town
Could be time to power down
Down, down, down
No one here, nowhere around
~Round and 'round
Could be time to power down
Down, down, down

Down, down, down, down
'Cuz only one thing can power me down
She got engine in her eyes
She got a throttle that she cannot disguise
All is revealed when you hit the ground
Could be time to power down
Down, down, down
No one here, nowhere's around
~Round and 'round
Could be time to power down
Down, down, down
Could be time to power down
Down, down, down
Down, down, down, down
Down, down, down, down
