

# Chris Whitley, Power Down

Down, down, down  
All is revealed when you hit the ground  
Miss Amelia, where are you now?  
Isolation up in the clouds  
Could be time to power down  
Down, down, down  
No one here, nowhere's around  
~Round and 'round  
Could be time to power down  
Down, down, down  
Emiliano, where are you now?  
Alien nation in a middle of town  
Could be time to power down  
Down, down, down  
No one here, nowhere around  
~Round and 'round  
Could be time to power down  
Down, down, down

Down, down, down, down  
'Cuz only one thing can power me down  
She got engine in her eyes  
She got a throttle that she cannot disguise  
All is revealed when you hit the ground  
Could be time to power down  
Down, down, down  
No one here, nowhere's around  
~Round and 'round  
Could be time to power down  
Down, down, down  
Could be time to power down  
Down, down, down  
Down, down, down, down  
Down, down, down, down
