

# Chris Young, You're Gonna Love Me

If you like a man who you can put your trust in  
You don't have to worry where he's been  
Then rest easy  
Girl, you're gonna love me  
And if you like to slow dance to ol' Keith Whitley  
Long Sunday drives out in the country  
I'm your cup of tea  
Girl, you're gonna love me  
Come and rest your head against my chest  
'Cause I'm the one for you  
You don't have to look no more  
Your search is through  
So girl if you like a handful of fresh wild flowers  
A back rub on a bad day talkin' for hours  
I'm good company  
Girl you're gonna love me  
Come and rest your head against my chest  
'Cause I'm the one for you  
You don't have to look no more  
Your search is through  
So girl if you like a big heart that's in this for the long haul  
Till we're rockin' on the front porch and they're callin' me papaw  
Till the last breath you breathe  
Girl, you're gonna love me  
Just try it and see  
Girl, you're gonna love me
