

Christ Agony, Dark Goddess

My goddess waits the insatiable womb
The wavy hips, the fresh blood
I'm coming back...
I'm coming back...
Kiss my lips and drink my blood
The eternity is with me
You'll see the light with guides
You'll see the space
of your own liberation
Kill me for my freedom
for my independence
Fill me for my thoughts
for my words
Kiss my lips and drink my blood
Eternity is with me
I'm coming back...
I'm coming back...
