

# Christian Alexanda, Won't Let You Go

Baby I know you understand  
I'm doing the best I can  
I'm just trying to be your man  
Ill always watch ur back for you  
For many reasons things have changed  
and nothing even feels the same  
Tell me how we got this way  
How do we get to this place  
I never in my life thought that we'd end up this way  
Cause' I was just so in love with you  
And now it feels so different  
Like everything has changed  
Shorty why can't we talk about it  
I don't know what to do  
Cause we don't even talk anymore (no we don't)  
And im feeling so much different than before  
And it feels like my whole life is crashing down  
But chu know (I still love you) I wont let you go  
I never know what to expect  
How bad are we gunna let this get  
You haven't listen to me yet  
I tried to talk this out with you  
I Sorta just gave up on us  
But relationship are built in trust  
I don't trust you anyway  
How did we get to this place  
I never in my life thought that we'd end up this way  
Cause' I was just so in love with you  
And now it feels so different  
Like everything has changed  
Shorty why can't we talk about it  
I don't know what to do  
Cause we don't even talk anymore (no we don't)  
And im feeling so much different than before  
And it feels like my whole life is crashing down  
But chu know (I still love you) I wont let you go  
If we stop for a minute  
Just to talk for a minute  
Baby you and I  
Can somehow try to keep how it used to be  
Change is unneeded  
Can you be more understanding  
Don't chu cry  
All of this is killing me  
Cause we don't even talk anymore (no we don't)  
And im feeling so much different than before  
And it feels like my whole life is crashing down  
But chu know (I still love you) I wont let you go  
Cause we don't even talk anymore (no we don't)  
And im feeling so much different than before  
And it feels like my whole life is crashing down  
But chu know (I still love you) I wont let you go  
I never in my life thought that we end up this way  
Cuz I was so in love with you..
