

Christian Walz, Corner

In the gutter
I'm getting up again thinking why
Aim to find her
When it's easier not to try
You need some help, yeah
It's not that simple but in a way
I saw my savior
and he's the hustler across the street

Chorus:

Baby I'm standing on the corner
I can get everything I wanna
I can get the stars he will assure me
I can get closer then I thought, yeah
Get yourself, get yourself, get yourself down the corner
Down the corner, yeah

It's no wonder

You get nothing if you wait

For it to thunder

You snapped that picture far too late

If you need some help, yeah

you call the sailor across the street

He knows defeat, yeah

He gets you anything you need

Chorus:

Baby I'm standing on the corner
I can get everything I wanna
I can get the stars he will assure me
I can get closer then I thought, yeah
Get yourself, get yourself, get yourself down the corner
Down the corner, yeah

Situation: going under

Situation: going under...

Chorus:

Baby I'm standing on the corner
I can get everything I wanna
I can get the stars he will assure me
I can get closer then I
Closer then I thought, yeah
