

Christian Wunderlich, Real Good Moments

Christian Wunderlich

Real Good Moments

Real Good Moments

I guess i'm not the only one

To tell you i can see the sun

In the smile you're smiling every day

You know you mean the world to me

I think i'm dreaming, but i see it

In your eyes and realize

That you are reality

I wanna thank you

I wanna thank you

In such a special way

For the time you spend with me in my life

Real good moments

'cause without you i could never survive

Believe me, it is true

I just wanna thank you

With everything that i owe you

A feeling that i never knew

Is what you left forever in my heart

You help me when i'm feeling pain

You lead me through the darkest lane

In my eyes

No surprise

You seperate the tears from falling rain

I wanna thank you

I wanna thank you

In such a special way

For the time you spend with me in my life

Real good moments

'cause without you i could never survive

Believe me, it is true

I just wanna thank you

Every minute i'm without you

Is a lost moment in my life

And that moment

Cuts deep like knife

You gave me power

To believe in myself

And my dreams again

You'll always be a part of me

I wanna thank you

I wanna thank you

In such a special way

For the time you spend with me in my life

Real good moments

That i always will remember you by

Real good moments

'cause without you i could never survive

Believe me, it is true

I just wanna thank you
