Christina Aguilera, But I Remember You (Pero Me

Now that my life is normal
Now that I got someone in home how dreams with me coming
Now I can say that I am ok.
Now that I am good.

Now with the time, I could get over
that love that almost kill me
Now there is no pain
Now at last, It is my again

But I remember you
and again i loose my peace
But I remember you
and my hart destroys.

But I remember you
and my smiles erases
But I remember you
and my world destroys.

Now that my future begins to shine
Now that got my security back
Now there is no more pain
Now at last, its me again

But I remember you
and again i loose my peace
But I remember you
and my hart destroys.

But I remember you
and my smiles erases
But I remember you
and my world destroys.

But I remember you
and again i loose my peace
But I remember you
and my hart destroys.

But I remember you
and my smiles erases
But I remember you
and my world destroys.
