

Christina Aguilera, Telepathy

You know how to read my mind
I'm lost and it's you I find
Crush into my side, you hold me tight
I know when to take a hint
I know when you're feeling pain
Make you feel you can feel like a man

And when you're feeling blue, I know
You're sad, I'll give you all my love
Cause I know you, I know you
I got your back, I do!
Do you keep me safe from harm
Do you take me in your arms
Cause you know me, yeah you know me
You've got telepathy

I've got you and you've got me
I know you and you know me
We've got telepathy
I've got you and you've got me
I know you and you know me
We've got telepathy
I know you and you know me
We've got telepathy
I know you and you know me
We've got telepathy

You know how to read my mind
I'm lost and it's you I find
Crush into my side to hold me tight, you hold me tight
And I know when to take a hint
And I know when you're feeling pain
Make you feel you can feel like a man, feel like a man

Do you keep me safe from harm
Do you take me in your arms
Cause you know me, yeah you know me
You've got telepathy

I've got you and you've got me
I know you and you know me
We've got telepathy
I've got you and you've got me
Yeah I know you and you know me
We've got telepathy
I know you and you know me
We've got telepathy
I know you and you know me
We've got telepathy

I know you and you know me
We've got telepathy
We've got telepathy
