Life Is What You Make It
At least that's what they say
Well I think im gon make it
Fulfill my dreams one day
I feel this fire growing deep inside of me
Im so inspired knowing that its my destiny

I breathe like a champion
I dream im a champion
I see im a champion
It's meant to be
My wills getting stronger
I cant wait any longer
Im singing a song that's inside of me
'cause im a believer
I know that I can make it
No matter what they say
So im a believer
The Future is Now
It starts today

I keep my head up

Everyday im waiting
Trying to find the patience
So close I can taste it..But sometimes it's so hard
But im gonna keep on pushing
And Im gonna keep on fighting
And im gonna keep on trying because I've come too far

I breathe like a champion
I dream im a champion
I see im a champion
Its meant to be
My wills getting stronger
I cant wait any longer
I'm singing a song that's inside of me
'cause im a believer
I know that I can make it
No matter what they say
So im a believer
The Future is Now
It starts today

The Future is now ..It Starts Today
