

# Christina Milian, Us Against The World

If the sun shuts down and decided not to shine no more  
I would still have you, baby  
If we see the last day and they say we gotta go to war  
I'll be fighting with you, baby

Cos I know if I'm falling  
You won't let me hit the ground  
If the boat is sinking  
I know you won't let me drown

"No matter what anyone could say  
This is the only place for me  
And no one could ever take that away  
Nothing could come between us"

"If the sun shuts down and decided not to shine no more (No more)  
I would still have you, you, you ,you, you, you, you  
If we see the last day and they say we gotta go to war (To War)  
I'll be fighting with you, you, you ,you, you  
Because it's us against the world  
The world, the world  
You know it's us against the world  
The world, the world, ohh"

Now if I'm lost at sea 7 days I'm not alone  
If I'm holding you, you, you, you, you  
And if it all ends, everybody in the world is gone  
I'll be standing with you, baby

And if it's the last breath I take  
I'll leave my cares with you  
If there's a wall between us, baby  
I know I'll break through

"No matter what anyone could say  
This is the only place for me  
And no one could ever take that away  
Nothing could come between us, no-oh"

"If the sun shuts down and decided not to shine no more (No more)  
I would still have you, you, you ,you, you, you, you  
If we see the last day and they say we gotta go to war (To War)  
I'll be fighting with you, you, you ,you, you  
Because it's us against the world"

Nothing's stronger now than you and I  
Cos your love is all I got  
And this we're never gonna stop,  
No, whoa  
There's no distance here when we're apart  
Come on in from the cold  
Lay your head on my shoulder  
Ride like a soldier  
I'ma stay right here

"If the sun shuts down and decided not to shine no more (No more)  
I would still have you, you, you ,you, you, you, you  
If we see the last day and they say we gotta go to war (To War)  
I'll be fighting with you, you, you ,you, you  
Because it's us against the world  
The world, the world  
You know it's us against the world  
The world, the world

Because it's us against the world  
The world, the world  
You know it's us against the world  
The world, the world

Because it's us against the world  
The world, the world  
You know it's us against the world  
The world, the world, oh"
