

Christopher Blue, Ghost In The Night

Here you come
Ms. Crazy
Your body swinging like a wrecking ball
Knocking everybody out
As you make your way down the street tonight
Take me on a joy ride
That would be out of sight
I wish you would stay
You're the one that got away
Everything about you
Is bending my mind
I'm on fire
I am electrified
My pleasure centers
Are coming alive
I want more I want more
I will never be satisfied
I wish you would stay
You're the one that got away
You're walking out the door
I'm wishing you'd be mine
You showed up like a stranger
Leavin' like a ghost in the night
