

Christopher Cross, All Right (Live)

I know, know what's on your mind
And I know it gets tough sometimes
But you can give it one more try
To find a reason why
You should pick it up, whoo, try it again
'Cause it's all right, think we're gonna make it
Think it might just work out this time
All right, think we're gonna make it
Think it might work out fine this time
All right, think we're gonna make it
Think it might just work out
'Cause it's not too late for that
Too late for me
And I know I've been hurt before
And I know, I really shouldn't give any more
But this time, this time things seem just a little different
When I look in your eyes you know I can see that it's true
And I hear you say
All right, think we're gonna make it
Think it might just work out this time
All right, think we're gonna make it
Think it might work out fine this time
All right, think we're gonna make it
Think it might just work out
'Cause it's not too late for that
Too late for love
Just when you feel helpless
Nothing left to say
Love will find us, the past behind us
Then we're on our way
Time and time again I see
People so unsure like me
We all know it gets hard sometimes
But you can give it one more try
Find another reason why
You should pick it up
Ooh, why
You should kick it up
Ooh, and try it again
'Cause it's all right, think we're gonna make it
Think it might just work out this time
It's all right, think we're gonna make it
Think it might work out fine this time
It's all right, think we're gonna make it
Think it might just work out this time
It's all right, think we're gonna make it
Think it might work out fine this time
It's all right, think we're gonna make it
Think it might just work out this time
It's all right, think we're gonna make it
Think it might just work out
'Cause it's not too late for that
Too late for love
