

Christy Carlson Romano, Just A Song

So when my voice breaks
Its called interoperation
When i hold a note
Its cause i want to
Not cause i feel anything about you
So don't flatter yourself thinking that i love you
Make you emotional
From a jerk to the minor
When I lose control
I'm not trying to impress you
Break it down and i get your attention
But its just formula don't need your validation
Validation

This is just a song
The music plays on then its gone again
This is just a song
The words don't mean a thing
So every time i sang i loved you all along
Remember, Remember this is just a song

Now i feel nothing
Yea i'm on auto pilot
I have sung these words
Even sung 'em while i'm sleeping
Just cause you have showed up here to see me

Doesn't mean i'm going home with you this evening
I know December is the month we meet
But it rimes with remember
Or did you forget i was only giving a performance
I haven't noticed you were in the audience
In the audience

This is just a song
The music plays on then its gone again
This is just a song
The words don't mean a thing
So every time i sang i loved you all along
Remember, Remember this is just a song

Everybody knows that this is just a song
And i don't feel a thing for you
Everybody knows that rhythm, rime, and structure
Doesn't mean that i love you
Oh no

This is just a song
The music plays on then its gone again
This is just a song
The words don't mean a thing
So every time i sang i loved you all along
Remember, Remember this is just a song
