

Chuck Berry, Lonely School Days

I saw you when you came in this morning
All chummy with somebody new
And I was all alone this morning
In sorrow still loving you

I know it shows, I'm broken hearted
This feelin' just won't go away
I've been so lonesome since we parted
And I'll be blue again in school today

Lonely school days do I have when you
Come to school with someone new
In my deepest sorrow over losing you
Lonely school days keep me blue

I saw you eating in the lunch room
Right where we used to sit and dine
With someone snuggled up close beside you
Enjoying pleasures that were mine

You talk to them along the hallways
You walk with them to classes too
You leave and go with them of evenings
And I go home alone and blue
