

Chynna Phillips, Unfinished Buisness

Guess you thought you'd get off easy
Guess I thought you'd never leave me
All I needed was a chance to
Say goodbye, ask you why

Guess it's all said and done now
You got back with your ex-lover
I often dream, I often wonder
Who we'd be today if you would stay

All I ever wanted was
To know that what we had was real
Before we break the deal
Could you take a minute out
To tell me what I meant to you
I've gotta know the truth
Can't ya, can't ya see it's

Chorus:
Unfinished buisness
That's what we are
I've gotta know why
I've always got you on my mind
Now let's get down to buisness
I've gotta feel your love inside of me
I wanna fly high
Just don't leave me with a memory

I thought I saw you walking tuesday
The shot made my heart go crazy
And I never sent the letter

But I've written it a hundred times

All I ever wanted was
To know that what we had was real
Before we break the deal
Could you take a minute out
To tell me what I meant to you
I've gotta know the truth
We've got to do this

(chorus)

Don't you ever dream about me
With my arms wrapped around you
Or have you locked us somewhere in your heart
I have you right in front of me
Ooh what ya doing feels good
And now I know that there will always be

Unfinished buisness
That's what this is
And that's ok
I couldn't change it anyway
So lets get down to buisness
I miss your love inside of me
But I know there will always be

(chorus)

Guess you thought you'd get off easy
