

Ciara, Like A Surgeon

Head Back

Eyes Closed

Deep breath

Let go

Bare with me

I'll take good care

I'm an expert

Other girls just can't compare

I'm highly recommended

Don't need a second opinion

You'll be all better (baby once I'm finished)

So be a good patient

Be patient

Stay under my observation

And holler back if you want it...

I know you never had a girl quite like me (uh) me (uh) me (uh) me

When it comes to love I'm like a surgeon

I'm a true tactician I'm a make your body better when we get in the right position

(I'm like a surgeon)

I'm a make your body jump, every time my body pumps (uh huh uh huh)

(I'm like a surgeon)

Until your reflexes leave you weak, my love is like anesthesia I'll rock you fast to sleep

(I'm like a surgeon)

Oh yes, I'm highly qualified, lay your head back on that pillow and relax your mind

Check (Check) calling patient patient patient numba one (one) make sure that you sign out (out) ar

Now that you've learned, you'll be so glad you returned, open up your mouth, let me check you out
