Cigarettes After Sex, Heavenly

wanting your love to come into me feeling it slow, over this dream touch me with a kiss touch me with a kiss

now you're above feeling it still tell me it's love tell me it's real touch me with a kiss feel me on your lips

because this is where I want to be where it's so sweet and heavenly

I'm giving you all my love all my love

needing you now to come into me feeling it slow, over this dream touch me with a kiss feel me on your lips

when
now you're above feeling it still
tell me it's love
tell me it's real
touch me with a kiss
feel me on your lips

I'm giving you all my love all my love

and when you're far away I still feel it all and when you're far away I still feel it all the same
