

# Cindy Vouge, Trust Me

Please just let me stray  
look the other way  
i gotta do this alone  
'cause im the only one here  
dont misunderstand  
youre the perfect man  
but im not ready to go  
and settle down with you  
so close your eyes  
close your eyes

## Chorus

Im not who you think i am  
let go, get out while you can  
trust me  
you dont,m you dont wanna see this  
ill b tryin everything  
knee deep into anything  
trust me  
you dont, you dont wanna see this

i cant help myself  
i feel like someone else  
youre gunna thank me someday  
im saving you the heartache baby  
if youre still aroud when im slowing down  
i might follow you home  
but dont wait up for me  
just close your eyes,  
close your eyes

## Chorus

Im not who you think i am  
let go, get out while you can  
trust me  
you dont,m you dont wanna see this  
ill b tryin everything  
knee deep into anything  
trust me  
you dont, you dont wanna see this

## Bridge

Dont put up a fight  
please dont kiss me goodnight  
this was hard enough to say  
no, you cant change my mind  
dont even try

## Chorus

Im not who you think i am  
let go, get out while you can  
trust me  
you dont,m you dont wanna see this  
ill b tryin everything  
knee deep into anything  
trust me  
you dont, you dont wanna see this
