

Cinema Bizarre, The Way We Are

World on the Street
Im driving alone
and they called my Name
Have all that he takes so catch my Flow
If every Days the same
Im givin my Love like Vertigo
When you need a Change
I figured you out so long ago

And now the Cracks are showing
Moving closer to you

And we can do Anything
Cause its so so Figures
Than we should be far far away
From the other People

And we can so fool their Lies
Cause its so so Figures
Than we should be long long away
From the other People

So dont hang around
It starts Today
You dont need a thing
Just bring on Yourself and hit that Wave
Its like Angels sing
Dont shut your Mouth thats what I say
and We wont let go
I figured You out so long ago

And now the Cracks are showing
Im closer to you

And we can do Anything
Cause its so so Figures
Than we should be far far away
From the other People

And we can so fool their Lies
Cause its so so Figures
Than we should be long long away
From the other People

And we can do Anything
Cause its so so Figures
Than We should be far far away
From the other People

And we can do Anything
Cause its so so Figures
Than we should be far far away
From the other People

And we can so fool their Lies
Cause its so so Figures
Than we should be long long away
From the other People

The other People
The other People
