

# Circle II Circle, A Matter of Time

You know it's just a matter of time  
Until we come  
To see the light  
It's really not a question  
Of whether men had sought  
To deify  
And so we seek  
To cast away the visions of the order  
Take away destruction of time  
Until it's over

Will you hold on forever  
Through the pain that held you inside  
Will you say you'll never  
Never see truth in the lies

The wheels keep spinning around  
Inside a world that's held in doubt  
Forever losing sight  
Of the things that kept us down

Will you hold on forever  
To the change that held you down  
Believe you'll never  
Abandon the way that you found

I see the world  
Threatened by the darkness  
Covered in a haze  
Of troubles and sadness  
Taken over now  
Controlled by the liars  
The pilates are the ways  
Of the demons  
Held inside

Will you hold on forever  
Through the pain that held you inside  
Will you say you'll never  
Never see truth in the lies

You know it's just a matter of time  
Until we come  
To see the light  
The wheels keep spinning around  
Silence the questions  
In your mind  
So we seek  
To cast away the visions  
In our lives  
You know it's just a matter of time
