

# Circle Jerks, Rats Of Reality

fading vision of a life unlived  
you don't regret a single thing you did  
don't wanna push the button  
don't wanna be dead  
just got to feed the creature inside your head

no no no you got no brains  
in that thick skull  
the rats of reality have eaten them all

one more hit down the left field wall  
can't see what's real or fantasy at all  
still have your imorals  
but they're hidden today  
it doesn't matter ,your brains in decay

[chorus]

fought the real ones,illusions too  
so depressed,don't know what to do  
forget about angels ,devils as well  
there's only you and all the rats in hell

[chorus]
