

# Circleslide, Noah

We floated out across my mistakes  
You gave your heart and I gave you pain  
You were the sun and I was the rain  
We floated out across my mistakes

I'm getting closer  
Closer to what found me  
The truth that shines in your eyes  
Like Noah on the mountain I will start again

We built a boat when the clouds rolled in  
I brought the flood bitter tears in the sand  
Still you forgave and you saved this lost man  
We built a boat when the thunder began

You were the sun and I was the rain  
After the flood love awakens again

I want to begin, ...
