

Cirque du Soleil, Bello Amore

Mio bello bello bello amore
there will never be another
from the day we met
there was never doubt
you... you were the one

there's a part of you
that has always been
very deep in my heart
i will show you belong to me
right from the start

mio bello bello amore
everyday a new beginning
though world stand still
when you look in my eyes
and you say you were mine

and all the love that we share
this love so precious and red
and burns like the paradors of stars
i can see that you will always be here for me
nothing can tear us apart
good times and bad
happy and sad
for the rest of our lives
we will always be here
side by side

mio bello bello bello amore
there has never been another
since the day we met
there has only been you
and that I have always been true

mio bello bello bello amore
we will always be together
after all these years
like could ever compare
to love... to love that we share

you are the only one who was always there
through joy and the pain
you were there through the darkness night
and tears fell like rain

mio bello bello amore
there will never be another
from the day we met
there was never doubt
you... you were the one

mio bello bello bello amore
i will always be your lover
every step i take
brings me back to the start
and back into your heart

mio bello bello bello amore
there has never been another
since the day we met
i have always been true
this love is only for you
this love will always be true...
