

City High, Caramel (Trackmaster Remix)

You can say I'm plain Jane, but it's not the same
I ain't in to big names, but I like nice things
I watch boxing matches and tha football games
I wouldn't mind being an actress, but I love to sing
I like going out, takin' walks and stuff
I don't run with many girls cause they talk too much
I enjoy quiet nights at home, curl up next to ya
Know I ain't a virgin that don't mean I'm having sex with ya

Anywhere I go I'm spotted
And everything I want I got it
5'5 with brown eyes
Smile like the sunrise

Anywhere I go I'm spotted
And everything I want I got it
5'5 with brown eyes
Smile like the sunrise

Baby look me in my eyes
And tell me if
I'm the kinda girl you like
I'm feeling you
Cause baby you're my kinda guy
Think about it, you just might
wanna run with this
All night long
And if you want me we can keep this going
Let me tell you I'm the type that's strong
And I don't trust a lot of men I'm independent I'm ain't like some other

women

Anywhere I go I'm spotted
And everything I want I got it
5'5 with brown eyes
Smile like the sunrise

Anywhere I go I'm spotted
And everything I want I got it
5'5 with brown eyes
Smile like the sunrise

Ven aqui, Ven aqui Mama
Baby girl don't you know you're a star
See We could take a little trip to mi casa
Spend the night popping cris in the hot tub
See I ain't never seen no girl like you
Every sexy little thing you do
5'5' brown eyes with your thick thighs
Every time I see your smile its got me hypnotized

(EVE)

I keep'em mesmerized listen to me closely
EVE E is how a thoroughbred is supposed to be
Hate the thirsty type can't even get close to me
That why I have my own stack daddy
How it's supposed to be
I aint about the game playing the gift chasing
All that front'n daddy please
We both big base'n
All the things I got forget me not
Just from my stance while you stare'n at me got you hot
Not to many *#*? like a one of kind

I mean even *** like a she's just a dime
Not impressed by you chris popp
Cause If you what I like
Into the night we gonna be lip lock'n
But only if I chose to I don't fall love easily
Give you the blues boo
I have sit'n round misty eyed
Caramel get all the time
How this **# with City High
